They are an exact match to hormones found in the human body making them free of pollutants that can raise your risk for certain illnesses & are highly customizable for proper dosing.

TESTIMONIALS

## IN OUR PATIENTS OWN WORDS

*I highly recommend Dr. Biggs and his clinic. After having two other doctors refuse to test my thyroid levels Dr. Biggs checked them in depth and all my hormones. He spent a lot of time with me going over results and suggested some natural supplements. The suggestions he recommended have made me feel so much better! He was very thorough and patient and I highly recommend him.*
